

Challenges #1: Goal

My FINAL PROJECT (website) is named ***CosmicAtlas***, an informative website dedicatedly to provide the viewers or visitors an exploration and information about the **Solar System**.

I am planning to create this website:

to be more informative and

has a quality content,

great visual presentation

A touch of media to represent the information for the visitors to browse.

My goals for this website are:

Recognize by other visitors,

more interactive for the visitors,

maintain quality information,

updated contents.
